Foreword

Statistics Centre – Abu Dhabi (SCAD) is pleased to present a historical review of Abu Dhabi Development Indicators to decision-makers, business enterprises, researchers and all those to whom statistical indicators are of interest. This publication aims to provide economic, social, demographic and environmental time series spanning the half-century from 1960 to 2010, providing a track record of the impressive development of the Abu Dhabi Emirate under the guidance of the late Sheikh Zayed bin Sultan Al Nahyan, former President of the United Arab Emirates and later under the leadership of HH Sheikh Khalifa bin Zayed Al Nahyan, President of UAE and Ruler of Abu Dhabi, and the unlimited support of HH General Sheikh Mohammed bin Zayed Al Nahyan, Crown Prince of Abu Dhabi, Deputy Supreme Commander of the Armed Forces and Chairman of the Executive Council of the Emirate of Abu Dhabi.

This publication contains time series for the key development indicators of the Emirate. It is the result of extensive work of data collection, analysis and harmonization, carried out by a team from SCAD, working with association with international statistical experts from the ICON Institute. The SCAD and ICON teams, as well as key Government agencies involved in the project, are acknowledged at the end of this publication.

Bringing these statistical data together in this one publication is a significant undertaking, as it provides a single reference volume that would serve as a valuable resource in the study of economic, cultural and social developments over the last 50 Years in a statistical context by examining the changes in the relevant key development indicators. It goes without saying that understanding what happened in the past is an essential input to the proper planning of the future, such as through the integrated long term strategies for the sustainable development of the Emirate recalled in the Abu Dhabi Economic Vision 2030 publication.

Preparing the data series for this publication has not simply been a matter of collating existing data series for the Emirate, as these data sets were plagued with gaps, inconsistencies and dubious values. This publication delivers a significant improvement in the quality of the key development indicators as the series are now completed over time, with data gaps filled, discrepancies removed and uncertain values investigated and revised where necessary.

This publication therefore represents a vast large step forward in both the availability and quality of Abu Dhabi's historical statistical data. It is SCAD's initial step in this regard as the Centre intends to update present work on an annual basis.

Hopefully, the Abu Dhabi Historical Time Series Tables are sufficiently detailed and meet the expectations of a wide range of readers, knowing that the future of the Emirate is based on its cherished past.

September 2012

Mandate

Statistics Centre - Abu Dhabi (SCAD) was established in fulfillment of the wise vision of His Highness Sheikh Khalifa bin Zayed Al Nahyan, UAE President and Ruler of Abu Dhabi, and HH Sheikh Mohammed Bin Zayed Al Nahyan, Crown Prince of Abu Dhabi and Deputy Supreme Commander of the Armed Forces, reflecting their Highnesses keen resolve to accelerate the pace of development and advance the National economy.

SCAD was established in accordance with Law No. (7) for the Year 2008, with a view to develop and organize statistical work in the Emirate of Abu Dhabi in particular and the United Arab Emirates in general. The Centre therefore has an independent legal personality and financial autonomy, and full legal capacity to act in a manner that is consistent with the Emirate's orientation towards sustainable development and strategic plans under the supervision and with full support of the Executive Council of the Emirate of Abu Dhabi.

In the performance of its mission and strategic plan, the Centre aspires to evolve into a distinguished institution that manages to cope with the requirements of the upcoming stage, which will see a focus on achieving high rates of growth and sustainable development. SCAD looks forward to becoming an active partner and contributor at all levels.

Being the main official body concerned with the collection of statistical data in the Emirate of Abu Dhabi, the Centre assumes the functions of preparing the statistical plans that serve the emirate's development programs, conducting statistical surveys all over the emirate, without prejudice to the interest of National statistical work. SCAD is also responsible for the collection, classification, storage, analysis and dissemination of official statistics and the release of the results of social, demographic, economic, environmental and cultural, surveys.

The activities of the Centre encompass all areas relating to social conditions in accordance with relevant international standards and ethics, such as independence, professionalism, impartiality, objectivity, confidentiality, cost effectiveness and quality of statistics.

As a local Government entity, SCAD is also committed to fully cooperate with the local and Federal government entities in conducting statistical surveys as per the annual schedule of surveys endorsed by the federal body concerned, and in accordance with its adopted methodologies, standards, classifications, definitions, questionnaires and forms, and planned survey dates. However, this is granted without prejudice to the right of SCAD to conduct statistical surveys within the emirate of Abu Dhabi according to its annual plan, and provided that the described cooperation does not run counter to the interest of National statistical work, with care being taken to ensure compliance with the policies of dissemination of statistical data pursued by Federal authorities in the release of National indicators. The Centre will also contribute towards any e-link projects with Federal bodies for the purpose of conducting joint surveys whenever necessary.

SCAD's mandate assigns it as the main authority concerned with the collection of statistical data, using standard methods and advanced techniques. The data are then duly examined and analyzed for extraction of indicators that serve the goals of development. These functions make the Centre a key source of information to decision and policy makers, blazing the track for development and growth, and serving in addition the needs of the public, the business community, researchers, the media, etc.

Finally, it is important to point out the need to promote awareness about the importance of statistical data and its role in enhancing sustainable development by fostering ties of fruitful cooperation between the Centre and the entire range of stakeholders across the community.

Abu Dhabi Key Indicators

This project has been carried out through joint work between SCAD and ICON, with the aim of reconstructing and harmonizing the historical data pertaining to the Emirate of Abu Dhabi for the period 1960 - 2010.

It has resulted in this report which contains the refined historical data series and a summary of the work carried out within the Historical Data (HD) project. Importantly, it now provides in one document a more consistent and higher quality compendium of the statistical data series of Abu Dhabi Emirate.

The report includes some 170 statistical tables, each covering one or more indicators on Abu Dhabi. It covers statistics pertaining to a wide range of topics, including economy, business and industry, Population and demography, social statistics, labour force, agriculture and environment. Through these tables the previous multiple sources for many indicators have been unified into single source tables, which also deliver standardization of definitions, terminologies and measurement units.

Section One: Economy

Item / Year	1970	1980	1990	2000	2010*
GDP at Current Prices (Million AED)	3,267	93,743	114,093	187,836	620,316
Oil GDP at Current Prices (Million AED)	2,143	69,384	61,4100	90,164	308,022
Non-Oil GDP at Current Prices (Million AED)	1,124	24,359	52,593	97,672	312,294
Gross Fixed Capital Formation (Million AED)	565	19,280	10,557	27,982	177,466
Commodity Imports (Million AED)	352	10,471	8,747	20,630	86,574
Commodity Exports (Million AED)	2,009	56,180	41,070	95,300	300,707
Consumer Price Index (1980 = 100)	-	100.0	158.8	232.5	405.8
Compensation of Employees (Million AED)	378**	9,756	14,423	30,310	117,432

* Preliminary Estimates

** Estimated as 13.7% of GDP.

Section Two: Industry and Business

Item / Year	1970	1980	1990	2000	2010
Total Number of Businesses Registered	1,947	11,115	41,919	28,541	96,381
VA of the Manufacturing Activity (Million AED)	10.4	1,266.0	10,693.7	17,613.4	33860.2
Crude Oil Production (Thousand Barrels/ day)	694	1,350	1,716	1,990	2,261
Crude Oil Exports (Thousand Barrels/ day)	695	1,338	1,544	1,770	2,040
Average Crude Oil Prices (USD/ barrel)	1.74	31.0	21.7	27.4	78.5
Daily Natural Gas Production (MCF)	729	1,434	1,684	3,454	5,668*
Electricity Consumption (MWH)	223,314**	2,376,367	6,605,690	19,128,380	39,173,140
Consumption of Desalinated Water (MIG)	½	14,150.9	47,069.0	94,279.3	192,028.0
Total Number of Hotel Establishments	6	17	29	49	116

* This figure is for 1972.

** Preliminary Estimates

Section Three: Population and demography

Item / Year	1970	1980	1990	2000	2010
Total Population (Mid-Year)	66,713	420,455	713,702	1,112,716	1,967,659
National Population	26,071	86,799	168,525	277,602	433,788
Nationals as % of Total Population	33.93	20.64	23.61	24.95	22.05
Crude Birth Rate (1000 inhabitants)	na	35.1	30.8	21.1	14.9
Crude Death Rate (1000 inhabitants)	na	2.9	2.3	2.1	1.5
Number of Registered Marriages	245	662	1,623	3,391	5,848
Number of Registered Divorces	119	434	816	1,229	1,769

Section Four: Social Statistics

A. Education

Item / School Year	1969/1970	1979/1980	1989/1990	1999/2000	2009/2010
Total Number of Schools	25	146	279	461	489
Total Number of Private Schools	0	23	87	170	184
Total Number of Pupils	6,972	48,992	134,600	217,776	291,512
Total Number of female Pupils	2,345	22,505	66,240	106,583	143,287
Pupils in Private Education	0	7,957	34,565	78,398	165,020
Total Number of Teachers	360	3,195	8,632	15,193	20,372
Illiteracy Rate Among Population (10 +)	67.4%	30.4%	24.6%	21.4%	7.9%
Illiteracy Rate Among National Population (10 +)	80.1%	40.1%	22.6%	12.1%	6.1%

B. Health

Item / Year	1980	1990	2000	2010
Total Number of Government Hospitals	5	13	14	12
Doctors in Government Hospitals	586	808	1,306	2,026
Doctors per 1000 Population	1.4	1.1	1.2	1.0
Nurses and Assistants in Government Hospitals	1,804*	2,421	3,769	5,222
Number of Beds in Government Hospitals	1,759	3,551	2,491	2,582

** This figure is for 1981.

Section Five: Labour Force

Item / Year	1975	1985	1995	2005
Total Employees in Local Government	13,475*	28,548	39,208	26,072
National Employees in Local Government	2,795*	5,198	6,887	7,907
Total Labour Force (15 Years and over)	124,274	297,406	532,881	815,311
National Labour Force (15 Years and over)	12,397	22,358	43,183	85,838
National Female Labour Force (15 Years and over)	267	945	4,522	17,287
Unemployment Rate Among Total Labour Force (%)	2.3	0.97	1.39	3.5
Unemployment Rate Among National Labour Force (%)	3.64	3.48	5.1	12.02

*These figures are for 1977

Section Six: Agriculture and Environment

Item / Year	1975	1980	1990	2000	2010
Total Area of Agricultural Plant Holdings (Donums)	30,239	59,155	200,653	620,143	747,679
Total Number of Livestock	86,514*	286,316	691,697	1,381,927	2,726,671**
Quantity of Fish Caught (Tons)	3,378	7,064	5,339	5,937	6,333
Av. Maximum Temperature (C°) - Abu Dhabi	33.2	33.8	34.4	35.5	35.3
Av. Maximum Temperature (C°) - Al Ain	33.3	36.4	35.3	36.7	36.8
Av. Minimum Temperature (C°) - Abu Dhabi	22.0	22.3	20.8	21.4	23.0
Av. Minimum Temperature (C°) - Al Ain	16.9	18.8	20.2	21.6	22.6

*This figure is for 1976; ** This figure is for 2009.

General Overview

A close look at the history of statistical work in the Emirate of Abu Dhabi reveals that a number of various local, regional and International departments and agencies have produced and released statistical data and indicators on the Emirate over the past five decades. These multiple data sources led to discrepancies in the historical values of a wide range of indicators for a number of Years, especially in economic indicators. Although SCAD started its official work only in the first quarter of 2009, the Centre understands that one of its core jobs is to enhance the availability and reliability of historical statistics and to construct consistent time series for all of the Key Indicators of the Emirate of Abu Dhabi for the time span from 1960 to 2010.

In response to this, SCAD commenced a major statistical project in early 2010, to rebuild, unify and harmonize the time series of Abu Dhabi's key development indicators for the past five decades. The implementation of this project, which lasted for more than a Year and a half, was undertaken in collaboration with the ICON Institute, as consultants, so as to take advantage of their experience in official statistics across the world.

To accomplish this major project, a joint team of experts was formed, including experts from SCAD and ICON, supported by an assistant technical team from the Centre's staff to help collect and enter statistical data and metadata for the period 1960 to 2010. SCAD's management has identified the main themes for this project as follows:

- General assessment of the historical data
- Unification of the values of the statistical indicators
- Estimation of missing values
- Resolving inconsistent data
- Standardization of definitions, terminology and units of measurement
- Testing the accuracy and consistency of the data series through review of the same with overall aggregates and sub-aggregates
- Compare indicator values with the values of other relevant indicators
- Test the accuracy of the data by running them in statistical models
- Review the values of indicators using graphs and growth rates
- Review the data in the light of historical events witnessed by the Emirate
- Document the methodology used in the reconstruction of time series

The management of SCAD realized from the beginning that the accomplishment of such a strategic statistical project has considerable technical and practical difficulties in sourcing data and documentation, and in reconciling and correcting these data. SCAD therefore placed resources at the disposal of the teams implementing this project and put it among the Centre's top priorities.

As expected, the technical team faced difficulties and obstacles that had to be overcome. In particular, there were no central, comprehensive and consistent sets of available statistical standards and documented methodologies for reference for many of the most important indicators. Moreover, an insufficient number of field surveys were carried out during the period under review. This created a number of data gaps. There was variation in the units and the base Years used for a number of indicators, with multiple values given for the same indicator in some cases. As well, there were problems from missing values, from data discrepancies, and from multiple sources for the same indicator giving similarly varied data values.

To overcome these obstacles and get consistent time series for the Emirate of Abu Dhabi, the technical team in general attempted to avoid resorting to estimation, unless it was found to be absolutely necessary, even if it took lengthy, detailed and complicated measures to get to the actual figure. However, in several cases, the technical team was left with no choice other than using appropriate statistical tools and methods to derive acceptable estimates for the missing values and for data with inconsistencies or discrepancies. Values estimated in this way have been documented and some are referred to in the table footnotes. For documentation, SCAD keeps records of all the methodologies and metadata used in implementing this project.

Following eighteen months of arduous work, the project teams have produced this set of statistical tables included in this book. They contain the most accurate and reliable data in terms of quality and consistency, and thus the best available statistical data for the Emirate of Abu Dhabi so far, as they have been extensively reviewed and checked for accuracy and consistency by the relevant departments of SCAD. Additionally, all the data presented in this book have been approved by the relevant local and federal government bodies, a list of which is included in the acknowledgements at the end of this publication. Moreover, this process was finalized through the reporting of the entire data content of this publication by the Executive Council of the Emirate of Abu Dhabi.

Accordingly, SCAD, being the source of the official statistics of the Emirate of Abu Dhabi, has produced the historical data series for all indicators included in this publication as official data for the Emirate of Abu Dhabi. In accordance with best international practice in official statistics, while these data represent the best estimates of historical time series for the Emirate which are currently available, as further information and data become available, SCAD will revise and re-publish the data. SCAD will provide this service for a number of Years, in order to continue to provide the best possible quality of data to users.

* In 1974 oil prices increased by 249% and annual production by 8%.

** Public Administration and Defence grew in 1981 significantly due to the amendment of social allowance for citizens employed with the Emirate of Abu Dhabi in July 1981, awarding the police and passport officers at the airport a nature-of-work allowance during the same Year.

*** Preliminary Estimates

Note: The UAE dirham (AED) was officially introduced on May 20th 1973, replacing the Bahraini dinar, which had been the local currency in circulation until that date. Accordingly, values presented in AED prior to the aforesaid date are equivalents of the UAE dirham.

* In 1974 oil prices increased by 249% and annual production by 8%.

** Agriculture, Live stock and Fishing grew in 1975 significantly due to different developments in that Year, such as establishment of the first typical livestock farm on an area of 100 hectares, growing wheat on an area totalling 300 donums, incorporation of Al Ain Vegetable Production Company with a total capital of AED 10,130,000 .

*** Preliminary Estimates

Note: The UAE dirham (AED) was officially introduced on May 20th 1973, replacing the Bahraini dinar, which had been the local currency in circulation until that date. Accordingly, values presented in AED prior to the aforesaid date are equivalents of the UAE dirham.

* In 1974 oil prices increased by 249% and annual production by 8% .

** Preliminary Estimates

Notes:

1. The UAE dirham (AED) was officially introduced on May 20th 1973, replacing the Bahraini dinar, which had been the local currency in circulation until that date. Accordingly, values presented in AED prior to the aforesaid date are equivalents of the UAE dirham.
2. Oil export commenced in June 1962

Notes:

1. “-” means value equal to “0”
2. “0” means value equal to less than “0.5 million”.
3. The rise in 2009 is due to the increase in export of tower lattice masts and parts thereof
4. The rise in 2010 is due to the increase exports of floating or submersible drilling or production platforms
5. During 2008, this section was expanded to cover articles not included before.

Note:

The Consumer Price Index (CPI) for the Abu Dhabi Emirates has been compiled and published on an annual basis since 1977. SCAD has started compiling and publishing CPI on a monthly basis since 2008. The index measures the change in the prices of a market basket of goods and services purchased by all types of households.

Notes:

1. Fixed phone lines for 1986-1989 estimated by dividing the number of fixed lines by end of the Year Population for 1985 and 1990, then used the average of those 2 numbers and multiplied it by Population figures. To get number of fixed lines for 2004 the average of 2 estimates was used, one as before and the other is an extrapolation. 1982-1985 estimated by taking growthing in number of buildings.
2. Mobile phone services started in 1982, Internet services started in 1995

Table 2.18. Key Statistics of Hotel Establishments Activity

Year	Hotel Establishments	Rooms	Guests for Hotel Establishments	Guestnights for Hotel Establishments

Section 5 Labour Force

Number Statistical Tables

5.1	Local Government Employees by Nationality - (1977-2010)
5.2	Labour Force (15 Years and over) by Nationality and Gender (1975-2005)
5.3	Average Annual Labour Force Growth Rates in the Intercensal Periods by Nationality and Gender (1975-2005)
5.4	Crude Activity Rates by Nationality and Gender in Census Years
5.5	Refined Activity Rates by Nationality and Gender in Census Years
5.6	Employed Population (15 Years and over) by Nationality and Gender (1975-2005)
5.7	Unemployed Population (15 Years and over) by Nationality and Gender (1975-2005)
5.8	Unemployment Rate by Nationality and Gender (1975-2005)
5.9	Total Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1975
5.1	National Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1975
5.11	Non-national Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1975
5.12	Total Labour Force, Employed and Unemployed Population by Education Status, Nationality and Gender, Census December 1980
5.13	National Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1980
5.14	Non-national Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1980
5.15	Total Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1985
5.16	National Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1985
5.17	Non-national Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1985
5.18	Total Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1995
5.19	National Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1995
5.20	Non-national Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 1995
5.21	Total Labour Force, Employed and Unemployed Population by Education Status and Gender, Census October 2001
5.22	National Labour Force, Employed and Unemployed Population by Education Status and Gender, Census October 2001
5.23	Non-national Labour Force, Employed and Unemployed Population by Education Status and Gender, Census October 2001
5.24	Total Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 2005
5.25	National Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 2005
5.26	Non-national Labour Force, Employed and Unemployed Population by Education Status and Gender, Census December 2005

Acknowledgements

In carrying out the Historical Data (HD) project, SCAD expresses its appreciation and gratitude to the technical team carried out this project and the local stakeholders, federal entities and other institutions for their key roles in providing the data and support to the preparation of this document. In particular, SCAD would like to gratefully acknowledge the contribution of the following:

SCAD Management:

- Mr. Khalid A. Al Safi Al Hashemi, Executive Director of Strategy and Policy Sector
- Mr. Abu Baker Abdullah Al Amoudi, Executive Director of Statistics Sector

Project Manager:

- Dr. Ahmed M. Zain El Minnawi, Statistics/ Economic Advisor

SCAD Support Group:

- Ms. Fatima Ahmed Sultan Al Suwaidi, Statistical Researcher
- Ms. Shamma Jumaa Mohamed Al Romaithi, Statistical Researcher
- Ms. Hiba Sadik Al Rawi, Statistical Researcher
- Ms. Razan Ismail Ahmed Yassin, Statistical Researcher
- Mrs. Rudhiyah Ranish, Strategy Analyst Assistant
- Ms. Ebtihal Ali Nasser, Dissemination Assistant
- Ms. Reem Radman Saeed, Dissemination Assistant

Other SCAD Staff Members:

- Mr. Osama Mahmoud Al Zoubi, Statistical Expert
- Mr. Walter Frederick Robb, Co-Manager of Population and Social Statistics
- Mr. Johan Jacobus Hendrik Erasmus, Head of National Accounts
- Mr. Hossam Ezzat Abdelrahim Makki, Senior Statistical Researcher
- Mr. Carl Johan Rohlin, Senior Statistician
- Mr. Sameh Raafat Abdel Hamid, Statistician

ICON Team:

- Mr. Peter Thomas, team leader
- Mr. Nicola Veronese, Resident statistical expert
- Mr. Mark Pollard, Statistician
- Dr. Yousif Daoud, Economist

Local and Federal Entities:

In particular, this project could not have been accomplished without the precious support of the following entities:

- Executive Council
- Abu Dhabi Education Council (ADEC)
- Health Authority of Abu Dhabi (HAAD)
- Department of Economic Development
- Department of Finance – Custom Administration
- Abu Dhabi Police
- Department of Municipal Affairs– Abu Dhabi
- Department of Municipal Affairs– Al Ain
- Abu Dhabi Tourism Authority
- Department of Transport
- Abu Dhabi Food Control Authority
- Judicial Department of Abu Dhabi
- Abu Dhabi Authority of Culture And Heritage
- Abu Dhabi Water and Electricity Company
- Abu Dhabi Distribution Company

- Abu Dhabi Airports Company
- Abu Dhabi National Oil Company- ADNOC
- Environment Agency – Abu Dhabi
- Abu Dhabi Ports Company
- Abu Dhabi Chamber of Industry and Commerce
- Ministry of Health
- Ministry of Education
- National Centre for Meteorology and Seismology
- Ministry of Interior
- Ministry of Social Affairs
- UAE General Civil Aviation Authority
- Emirates Telecommunications Corporation (Etisalat)
- National Bureau of Statistics (NBS)
