Introduction

The livestock sector contributes to the diversification of income sources, food security and job creation, it also provides some households needs (within the secondary activities), where many households raise animals to meet their needs and sell the surplus.

The livestock sector, which includes livestock, commercial farms and fisheries, pays a great attention to breeding using advanced methods, especially in poultry and cattle breeding. The sector also contributes to the national income.

This bulletin highlights in details the fields related to the livestock sector; it includes a large number of significant indicators that help to study and analyze trends in the sector. This will help to create future plans and strategies to achieve sustainable development in line with Abu Dhabi.

The second edition of the bulletin includes detailed data on livestock numbers by type, gender and age groups, it also provide data on commercial farms, which are classified into cattle farms, broiler chicken farms, layers chicken farms and mother hens farms. A farm may specialize in one type or more of livestock production. This publication contains data on fisheries, which is one of the most important sub-activities in the sector.

Summary of Indicators

The bulletin consists of a number of charts and table that include detailed statistical data of the livestock sector for 2018. The key indicators of Abu Dhabi of livestock sector are listed below:

Livestock Statistics (Traditional Holdings)

Indicator		
Number of Animal Holdings	number	24,189
Number of Sheep	number	1,771,922
Number of Goats	number	1,382,341
Number of Cattle	number	40,326
Number of Camels	number	405,160

Commercial Farms Statistics

Indicator		
Number of Broiler Farms	number	10
Number of Layer Farms	number	9
Number of Parent Stock Farms	number	3
Number of Cattle's Farms	number	14
Number of Cattle's	number	26,650
Number of Milking Cows	number	13,440
Quantity of Cow Milk	ton	136,930
Quantity of Chicken Meat	ton	22,408
Quantity of Table Eggs Production	000 egg	529,693
Quantity of Hatchery Eggs Production	000 egg	27,964
Quantity of Organizing Manure	ton	167,261

Fish Production Statistics

Indicator		
Quantity of Fish Catch	ton	4,892
Value of Fish Catch	Million AED	120.5
Number of Fishermen	No.	4,260
Number of Fishing Boats	No.	836

1. Livestock Statistics

1.1 Livestock Statistics

The livestock sector is regarded as one of the pillars of development and integration in the emirate of Abu Dhabi, and one of the most important activities of the agricultural sector in emirate of Abu Dhabi.

The statistics Centre – Abu Dhabi (SCAD) was covetous to follow the latest statistical methodologies in data collection and processing and in estimating indicators related to livestock. These indicators are of great importance for policy formulation, and the preparation of future plans and programs to meet the increasing demand on livestock production due to population growth, and consequently to bridge the gap between production and consumption to adjust the balance of trade.

This bulletin includes the results of livestock number by type, and region, and it includes data about of the commercial farm.2018

Table 1.1: Number of livestock in Traditional Holdings by Type, 2014 to 2018

Year	Total	Sheep	Goats	Cattle	Camles
2014	3,403,088	1,722,965	1,272,385	30,010	377,728
2015	3,519,561	1,772,778	1,311,699	51,197	383,887
2016	3,514,570	1,760,553	1,312,803	46,990	394,224
2017	3,545,000	1,757,481	1,337,090	41,959	408,470
2018	3,599,749	1,771,922	1,382,341	40,326	405,160

3. Fish Production Statistics

3.1 Fish Production Statistics

Fisheries is one of the most important sub-activities in the agricultural sector, as it contributes to the employment of labor and provides a decent life for a number of residents in the coastal areas, in addition to providing essential products for food consumption in the Emirate.

The global demand for fish is steadily increasing with the expectation it will continue to rise due to population growth and rising incomes. The Emirate of Abu Dhabi enjoys a coastal line that exceeds 500 kilometers, accommodating various marine life. The UAE territorial water contains more than 200 islands of various size and historical and economic importance.

The amount of fish caught in 2018 totaled 4,892 tons, increase of 3.2% compared with 2017. The estimated value of fish production amounted to about AED 120.5 million and it was caught in around 23,378 fishing trips, including 89% with tarad and 11% with lansh.

Scombridae accounted for the highest value of caught fish, with AED 51.4 million or 42.7% of the total value of the catch in 2018. This was followed by Epinephelidae worth 26.5 million dirhams or 22.0%, Carangidae with AED 23.3 million or 19.4% and Lethrinidae with AED 7.4 million or 6.1% of the total value of catch in 2018.

Explanatory Notes:

Data Sources

Abu Dhabi Agriculture and Food Safety Authority, Environment Agency - Abu Dhabi and Department of Municipal Affairs (Municipality of Abu Dhabi- Municipality of Al Ain- Municipality of Al Dhafra Region).

Technical Notes:

Methodology Adopted

The statistics Centre – Abu Dhabi (SCAD) was covetous to follow the latest statistical methodologies in data collection and processing and in estimating indicators related to livestock, commercial farms and fish production statistics

Notes on Tables

1. Source of Number of livestock from: The Animal Identification and Registration System, livestock numbering.
2. Some figures have been rounded to the nearest final digit shown. Consequently, discrepancies may exist within a table between totals and sums of constituent items.

More Information and Next Release:

For more information about livestock statistics and agricultural statistics, please visit the statistics link on the SCAD website at <http://www.scad.ae>

The next release is expected in September 2020 for 2019 data.

رؤيتنا: الريادة والابتكار في الإحصاء
Our Vision: Leadership and Innovation in Statistics
